Their current thematic release titled, "NO RESERVATION" creates an escape with a memorable and distinct sound, which is a testament to these producers. Join in on the fun by listening to how **LIFE IS SUITE** combines the party-hard-hitting character of Electro House with the mystic presence of different Tribal Music of The Americas – over a trap drop. This playfulness of genre experimenting and fusion that is native to the **LIFE IS SUITE** soundscape is what delivers the freedom you need to put your bags down and check in.

Now, envision yourself on the expansive (and expensive!) wrap-around terrace of a 46th floor private suite and overlooking the shimmering lights of the panoramic Las Vegas grandeur. The magnetism of a majestic lifestyle can hearten the soul of any musician and make the skyline appear to spell the words "live your dream". Surrounded by the stars, inspiration, and comradery; one can begin to cherish the jovial emotion in the air. This became a home away from home. (Home Suite Home) You are now enlightened to the force which gave birth to **LIFE IS SUITE**!

Like anything else in its formative age, **LIFE IS SUITE** speaks of aspirations. Similar to a child nurturing his own desires and striving to accomplish. By virtue of this innocence that **LIFE IS SUITE** places on their artistic legacy, a touch of carelessness and mischievousness develops over their persona. Thus, maturing into a free-spirited character with an admirably childlike imagination that holds no reservation in its self esteem. **LIFE IS SUITE** is for the kids. Such youthful imagery and self expression reflects on the feel good music of **LIFE IS SUITE**. Since **LIFE IS SUITE** is for the kids, then their studio sessions always begin by "getting the sillies out", as the guys from **LIFE IS SUITE** say. By first cracking a few jokes, then cracking a few beers, **LIFE IS SUITE** ambitiously gets to work and starts production of their first album. An album soon to be comically titled, "Life is Suite is 4 The Kids". A carefully selected list of songs, that takes recognizable samples and clashes them with Pop sounding instruments, and "sprinkles it with love." Getting Sia and other like minded artists to collaborate is a goal they wish to accomplish for this blend of songs.

The tenacity ingrained in **LIFE IS SUITE** shows reputably through the collection of melodies they have been scoring so far. With each song **LIFE IS SUITE** releases on their online platforms, the group gains new supporters. With the attentive engaging of their social mediums, **LIFE IS SUITE** deepens a thriving relation with their listening and viewing public. With a repertoire of beats, mixes, mashups, remixes and videos, **LIFE IS SUITE** breeds a musical trade that stretches over many streams.

Release Year: 2015
