The Sound of **LIFE IS SUITE**

To categorize **LIFE IS SUITE** into the stereotypical sound and look of EDM would be a mistake. The variety of music rooted in their New Yorker youth-hoods and Latin American households undoubtedly gives **LIFE IS SUITE** an edge over the rest, separating them from other EDM figures. Although, the positive energy that comes within the branch of Electronic Dance Music is what they consider the engine of their class, do not rule them out of jammin' a Reggae riddim today, and fiddling a Country tune tomorrow. After listening to their blend of Hip Hop, Latin, and Electro Music, you will be repeatedly reminded that no genre is safe from their lazer-eyed focus and no label is dubbed global enough to denote their reaches.
